

All Dental Nurses, as well as DN students, need to be immunised against Hepatitis B. The sooner you do this the better as most employers would want you to be vaccinated and protected from the day you start work – and being protected is in your best interest.

To make the vaccination process simpler for our Students, SmileWisdom have an agreement in place with My Healthcare clinic in Wimpole Street (a few minutes walk from the BDA where we are based). You are welcome to contact them on the details below and arrange your vaccinations with them, or you can of course contact your local healthcare provider who offers this service.

MyHealthcare Clinic offers a discounted rate for your Hep B inoculations: £45/injection (you will need 3) (regular price if you're not our student is £55/injection)

They have 3 locations in London:

Wimpole Street, W1
Fulham, SW6
Wandsworth, SW18

To claim your discount simply call the clinic directly on 0207 282 4370 and let when booking let them know that you are SmileWisdom student.
